# CHARGER

We have retained the classic design yet subtly added design touches such as the frenched bumpers and grill to eliminate body gaps. Underneath it all is a custom Full Frame chassis which gives the car its low stance and allows us to run those big 20" wheels (22" rear are an option as well). This Stance is the key design element that distinguishes the car from the pack. A crate 6.4 HEMI motor mated to either a manual or auto box gives more than adequate power and big Wilwood brakes do an awesome job at stopping this mass at speed.
