**ETYPE SE1**

# ETYPE

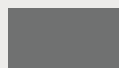

This is a carefully orchestrated departure from the classic body lines featuring a fat fendered rear body which was necessary to accommodate the 20x12 wheels. This is balanced in the front by replicating the same lip design as on the back arches. The rest of the body lines are preserved with custom rear bumpers and lights that are a reflection of the original design. The massive back wheels provide much needed traction and are connected to the custom Full Frame chassis via an independent rear end. A crate LS3 mated to a 6L80 Auto Box (manual optional) lends 430 horses and big Wilwood brakes ensure adequate stopping.
